	XUMO	\$15	\$15	\$15
 Spectrum Voice	Home Phone	\$15	\$15	\$15

Commission Payout Timing & Early Release Policy

Standard Payout (Guaranteed)

Commissions are guaranteed once the activation clears the 90-day charge-back period. After this charge-back period and once the two-consecutive-month activation requirement is met, commissions are paid on the normal commission cycle, with payment issued on the 15th of the applicable month.

Early Commission Release (Good Faith Advance)

Spiked Mobile may, at its discretion, offer an early release of commissions as a good-faith advance prior to the standard payout timeline. Eligibility is based on consistent sales performance, defined as maintaining at least 70% of the prior month's activation volume and demonstrating a clear trend toward meeting or exceeding that level again in the month of release. Early releases may include a brief activity review with your Partner Expert and/or Partner Success Manager to confirm consistency and program alignment.
