

Arkon is a global manufacturer and supplier of high-quality mounting solutions for a wide range of mobile devices, including smartphones, tablets, cameras, and GPS units. Their mission is to provide high-quality products that offer the best overall value to customers, which they achieve through building long-term relationships and a relentless passion for quality.

ARKON'S PRODUCT LINE INCLUDES A VARIETY OF MOUNTING SOLUTIONS:

RoadVise® Motorcycle Phone Mounts:

These mounts, available in both chrome and black aluminum, are designed to securely hold phones on motorcycles, even when encased.

RoadVise® XL Mounts:

These are larger mounts capable of holding midsize tablets as well as phones, providing a robust solution for motorcycle enthusiasts.

Robust Clamp Mount with Phone Holder:

This product features an extra-strong clamp with a security knob shaft, designed to hold devices securely in a variety of settings.

Arkon emphasizes innovation and quality in their products, aiming to keep devices secure and within reach for over 30 years. They offer a range of mounts for different purposes including vehicles, creative content production, and more, catering to various needs such as hands-free device holding for artists, crafters, and designers.

The company also provides comprehensive support, including warranties and product registration, and invites customers to join their affiliate program. They ship internationally, and their products can be explored and purchased directly from their website.
